

A word from our Editor-in-Chief

WE PROPOSE A YEAR 2022 WITH VERY GOOD RESULTS !

Through these lines we will present the first issue of the review in 2022. This first issue of 2022 contains original researches written by well-known authors in the field. The scientific papers were presented at the QIEM - ICNCT 2021 Conference on the 18th and 19th of November 2021, conference held in Cluj Napoca. The conference took place online but even in these conditions the participation was numerous.

This year, the Nonconventional Technologies Review celebrates 25 years of existence, something worth considering.

The most important matter for this scientific journal is to continue its journey and to be able to continue to increase its scientific quality.

We intend to organize an event in the future to mark the 25th anniversary of this scientific publication.

I would like to thank all those who support the Nonconventional Technologies Review and I invite them to join us in the future !

Sibiu, March 2022

Professor Aurel Mihail TITU

Editor – in – Chief

Nonconventional Technologies Review
